Toxicology Letters, 69 (1993) 299–301
Elsevier Science Publishers B.V.

CONTENTS OF VOLUME 69

No. 1 **July 1993**

Editorials v

Research Letters

Effects of ciprofloxacin and enrofloxacin on zoxazolamine kinetics, plasma concentration and sleeping times in mice
P.M. Vancutsem and J.G. Babish (USA) 1

Toxicity evaluations of L-cysteine and Procysteine™, a cysteine prodrug, given once intravenously to neonatal rats
R.D. White, D.M. Wilson, J.A. Glosson, D.C. Madsen, W.B. Rowe and D.I. Goldberg (USA) 15

Rodent tissue distribution of 2-cyanoethylene oxide, the epoxide metabolite of acrylonitrile
G.L. Kedderis, R. Batra, S.D. Held, M.A. Loos and S.K.O. Teo (USA) 25

Stimulation of protein kinase C by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin (TCDD) in rat thymocytes
P.B. DePetrillo and R.N. Kurl (USA) 31

Subchronic toxicity study of methyl hesperidin in mice
M. Kawabe, S. Tamano, M.-A. Shibata, M. Hirose, S. Fukushima and N. Ito (Japan) 37

Maternal and developmental toxicity of manganese in the mouse
D.J. Sánchez, J.L. Domingo, J. M. Llobet and C.L. Keen (Spain, USA) 45

Effect of ozone on metabolic activities of rat hepatocytes and mouse peritoneal macrophage
R.E. Peters, C. Inman, L. Oberg and J.B. Mudd (USA) 53

Effect of intratracheally administered lindane on aldrin and benzo(a)pyrene contents in lungs of rats
M.A. Khan, M.A. Matin and M.U. Beg (India) 63

In vitro cytotoxicity of 1,4-naphthoquinone derivatives to replicating cells
H. Babich, A. Stern and R. Munday (USA, New Zealand) 69

The mechanism of chloroform toxicity in isolated rat hepatocytes
N.S. El-shenawy and M.S. Abdel-Rahman (USA) 77

The mechanism of methyl mercury toxicity in isolated rat hepatocytes
H. Ashour, M. Abdel-Rahman and A. Khodair (USA, Egypt) 87

Differential effects of cyanohydroxybutene and selenium on normal and neoplastic canine mammary cells in vitro
M.A. Wallig, M.J. Kuchan and J.A. Milner (USA) 97

No. 2 **August 1993**

Research Letters

Dose–response relationship between total cadmium intake and β_2-microglobulinuria using logistic regression analysis
T. Kido and K. Nogawa (Japan) 113

In vitro inactivation of glucose-6-phosphate dehydrogenase from human red blood cells by acrolein: A possible biomarker of exposure
N.M. Trieff, D. Ficklen and J. Gan (USA) 121
The mitogenic potential of trichloroethylene in B6C3F1 mice
C. Dees and C. Travis (USA) 129
Electrocardiographic responses to carbon monoxide and cyanide in the conscious rat
G.M. Katzman and D.G. Penney (USA) 139
Behavioural effects of piperonyl butoxide in male mice
T. Tanaka (Japan) 155
Change of polyamine level in various tissues of male rats intoxicated with paraquat
S. Watanabe, S. Sato, S. Nagase, M. Tomita and T. Saito (Japan) 163
Short-term effect of sodium benzoate in F344 rats and B6C3F1 mice
T. Fujitani (Japan) 171
Optimization issues in physiological toxicokinetic modeling: a case study with benzene
T.J. Woodruff and F.Y. Bois (USA) 181
Teratogenic evaluation of di-*n*-butyl phthalate in rats
M. Ema, H. Amano, T. Itami and H. Kawasaki (Japan) 197
3,3',5-Triiodothyronine-induced hepatic respiration: Effects of desferrioxamine and allopurinol in the isolated perfused rat liver
V. Fernández and L.A. Videla (Chile) 205
Turnover of hepatic glutathione after acute lindane intoxication
V.B.C. Junqueira, S.B.M. Barros, K. Simizu, V. Fernández, Y. Carrión, R. Pimentel, L.A. Azzalis and L.A. Videla (Brasil, Chile) 211
Biological monitoring of human exposure to atrazine
G. Catenacci, F. Barbieri, M. Bersani, A. Ferioli, D. Cottica and M. Maroni (Italy) 217

Announcements 223

No. 3 **September 1993**

Minireview
Cellular mechanisms of cocaine cardiotoxicity
A.A. Welder, P. Grammas and R.B. Melchert (USA) 227

Research Letters
The effect of organophosphates on a chicken brain or sea urchin egg kinesin-driven microtubule motility assay
C.H. Liu, R.J. Higgins, D. Buster, J.R. Sanborn and B.W. Wilson (USA) 239
Evaluation of chloroform cardiotoxicity utilizing a modified isolated rat cardiac myocytes
N.S. El-shenawy and M.S. Abdel-Rahman (USA) 249
A large dose of ergocalciferol does not cause deficient blood coagulation but is extremely toxic to rats
O. Takahashi (Japan) 257
Aminoguanidine inhibits cell proliferation by prolongation of the mitotic phase
T. Sugiyama, H. Shimada, M. Nomura and K. Miyamoto (Japan) 273
Induction of hepatic drug metabolizing enzymes and interaction with carbon tetrachloride in rats after a single oral exposure to atrazine
G. Ugazio, E. Burdino, M. Dacasto, A. Bosio, G. van 't Klooster and C. Nebbia (Italy, The Netherlands) 279

The toxicity of chlorophenols in V79 Chinese hamster cells
K. Jansson and V. Jansson (Finland) 289
